

GEORGE QUINN
stair components

THE ULTIMATE COLLECTION

Our Mission...

...is to maintain our market position as Ireland's leading supplier of precision turned wooden products by investing in the latest technology and providing customers with a quality product and service, second to none.

George Quinn Stair Components

Quality Personified...

White Oak / Red Deal Laminated
strings, steps and risers

T.G. & V Sheeting

Experience

A family run business, we are established for almost fifty years and are now Ireland's premier supplier of turned timber products. From humble beginnings manufacturing stair and furniture components, we are now Ireland's industry leader and have earned an enviable reputation with Joiners, Building Suppliers and Furniture Manufacturers everywhere.

Quality

Our highly skilled workforce and modern manufacturing facilities flows as an unbroken chain from management to sales to production with a rigorous inspection and quality policy in place through each step of our business. State-of-the-art technology, innovative craftsmen and our in-house kiln drying facilities, guarantee customers with a superior product, time after time.

Service

We carry a wide range of stock, so turnaround time for orders are kept to a minimum and along with nationwide deliveries, ensures that customers can carry minimum stock, freeing up space and capital. As well as standard designs, we also welcome unique challenges, in that we can provide a **Special Design Service** to architects, interior designers and specialist joiners, who require a product with an original design appeal, be it for offices, homes, hotels and bars.

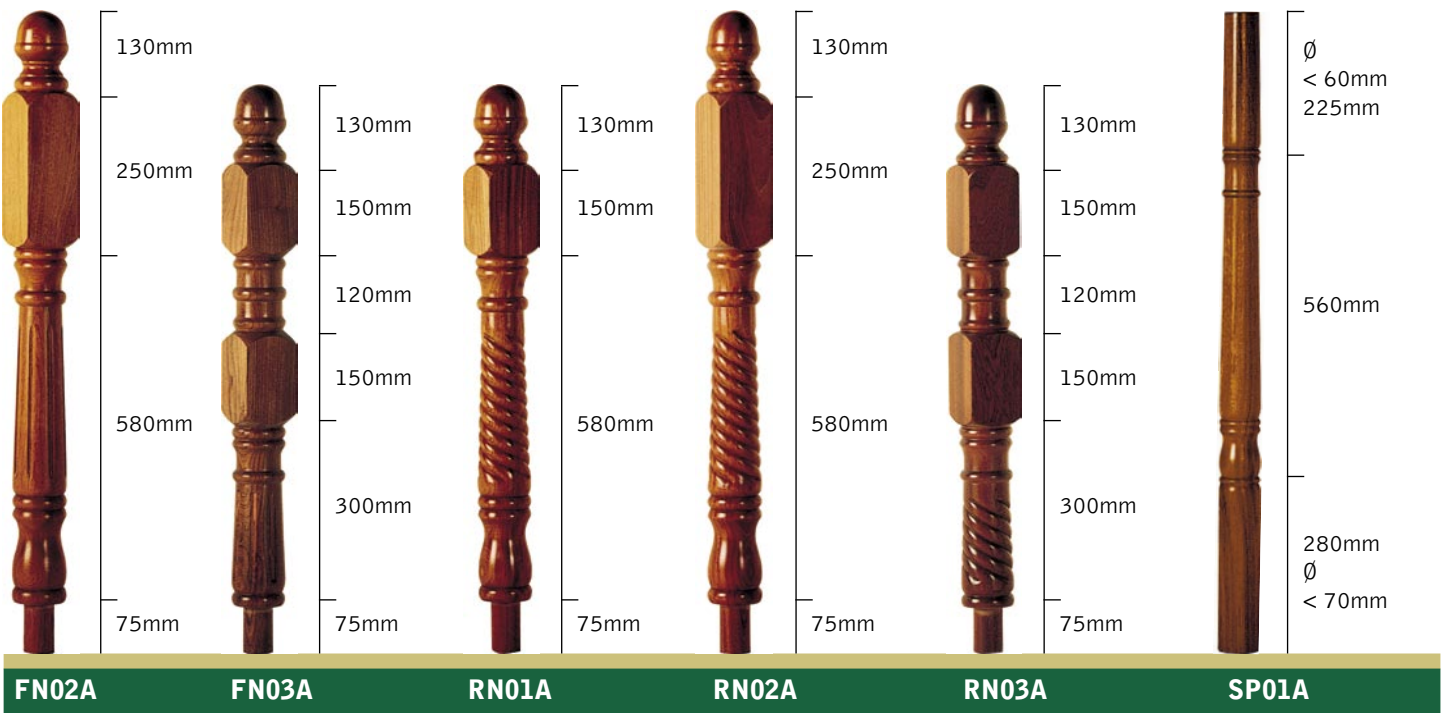

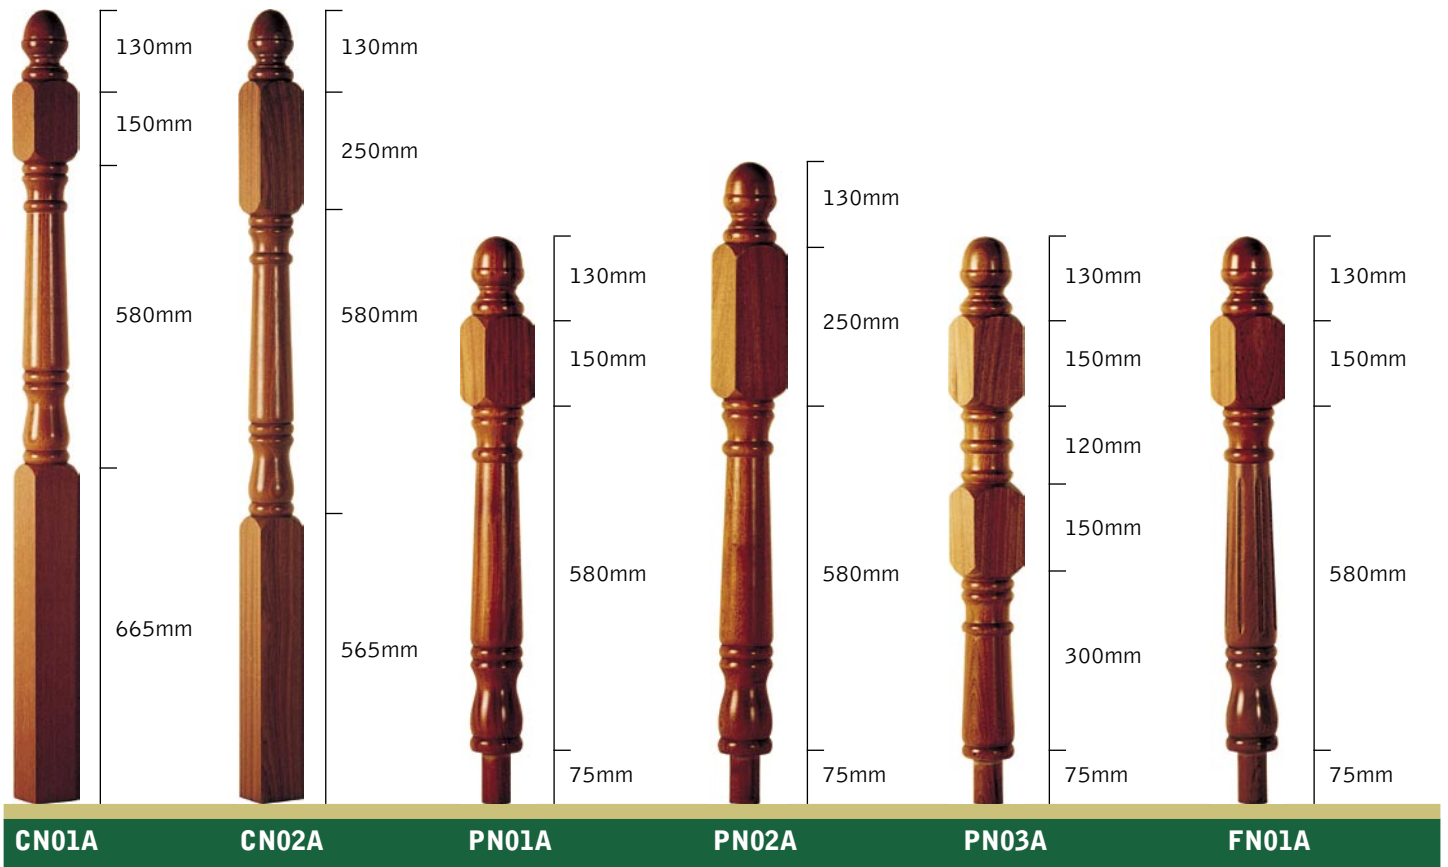

www.staircomponents.com

www.GQL.ie

Our website provides customers with an excellent platform to access up-to-the-minute information on George Quinn Stair Components and the services we offer. Regularly updated product portfolios along with new brands and designs are all supported with information on various timber species and changing trends in both styles and manufacturing technology. A must for all architects, designers and specialist joiners, the site contains a whole new era in stair design and production.

The Achill Range of Stair Components has been our most successful and long standing range in our portfolio. It is available in a 41mm x 41mm Stair Rail and 91mm x 91mm Newel Post with matching hand and base rail. Incorporating plain, roped and fluted designs, this range adorns some of the country's finest homes and has proven successful throughout the industry. All available ex-stock and all timbers.

The exciting Oriel Range reflects the changing mood in Ireland today, from more traditional styles to that of a cosmopolitan European feel. The range consists of a truly modern approach with a 41mm x 41mm spindle. Simplicity is the first impression coupled with a subtle hint of an exquisite wood turning effect in a rebated design, the Oriel Range is a truly modern approach to stair design.

The Boyne Range will take you drifting back to times gone by, when stair design presented itself in uncomplicated, yet practical styles of bare minimalism. The chamfered-turned design will prove to be a favourite with homeowners who cherish both simple shapes and traditional crafted qualities. The range is available in 41mm x 41mm Stair Rail and 91mm x 91mm Newel Post.

YOUR IDEAS - OUR EXPERTISE

Your Ideas, Our Expertise...

Our **Signature Service**, is exactly that, your ideas combined seamlessly with our production expertise. You have an image in your mind but can't find the exact design anywhere, the shape, the colour, the size; all elude your best efforts to locate that extra special product.

At George Quinn Stair Components, we not only manufacture components of the highest quality, we provide customers with the production ability to make your creativity - a reality. For instance, you may not wish to have a standard spindle but would like a bespoke design or turning applied. You may want an unusual shape, one that cannot be replicated in mass production, a design which is as individual as you are - the answer - George Quinn Stair components.

We have worked closely with architects, designers and specialist stores to provide realistic design ideas which have been implemented in countless projects, varying from hotels, bars, listed buildings and modern developments.

So no matter how unusual your design, why not contact us to find out if we can make it a reality - you'll be glad you did.
